

NOTE FOR: Director of Logistics

FROM:

Chief, Real Estate & Construction Division, OL

STAT

SUBJECT: 2430 E. Street Complex Safety and Health Survey

1. With reference to the response from John Myers regarding subject Safety and Health Survey of the 2430 E. Street complex, we have contacted Mr. Hope, Director, Buildings Management Division, (WPB). Mr. Hope seemed amenable to working with the Agency to solve some of the problems in the Safety and Health report and has advised that a Mr. Hawkins, of his office, will call  of the Field Engineering Branch, to schedule a joint GSA/Agency meeting to outline plans for corrective measures.

STAT

2. It is not intended to prepare a formal reply to Mr. Myers' memo of 17 September at this time.

Mr. James H. McDonald
Director of Logistics
Central Intelligence Agency
Washington, DC 20505

Dear Jim:

22 SEP 1981

Thank you for your letter of August 25, 1981, concerning a safety and health survey of the 2430 E Street complex conducted by your Agency personnel.

I am aware of our obligation to abate hazardous conditions that are the responsibility of General Services Administration (GSA). However, in reviewing the report it is difficult to differentiate between Agency and GSA responsibilities for numerous items.

It is recommended that GSA and your safety personnel conduct an onsite survey to ascertain Agency and GSA areas of responsibilities, and which items constitute specific Occupational Safety and Health Administration violations. We will then proceed with our necessary corrective measures and provide you with an abatement plan for all work that cannot be accomplished within 30 days of the onsite survey.

Please contact Mr. Hope, Director, Buildings Management Division (WPB), to schedule the survey. He can be reached on 472-1841.

Sincerely,

JOHN T. MYERS
Assistant Regional Administrator
Public Buildings Service

25 AUG 1981

Mr. John T. Myers
Assistant Regional Administrator
General Services Administration
Washington, D.C. 20407

Dear John:

The health and safety of our employees is a major management concern at the Central Intelligence Agency (CIA). A recently conducted survey at the CIA complex located at 2430 "E" Street, NW, Washington, D.C., cited over 230 health and safety deficiencies. I have been asked by the Deputy Director of Central Intelligence to correct these deficiencies as quickly as possible.

The resident CIA logistics officer at the "E" Street Complex has been working with the State Department Group, General Services Administration, to correct the cited deficiencies, and through their joint efforts progress is being made. Additionally, I have enclosed a copy of the health and safety survey for your review. Any further assistance that you or your staff can provide to alleviate this situation would be greatly appreciated.

If you have any questions concerning this matter or if I can be of any assistance, please contact me on [redacted]
